

Keder Contour

PVC tape for fixing images in aluminum profiles.

The flat PVC contour is stitched onto printed textile clothes and ensures the canvas can be attached to the aluminium frame. The scope of application for textile frames is very wide, such as: LED frames, stand construction, retail and interiors.

Available in a wide variety of designs, sizes and elasticities

Material: PVC o TPE

Surface: Smooth

Available colours: transparent blue and white (PVC) or grey (TPE).

Packaging: Standard package of 200 meters
