

Automatic screen printing press **New Facelift Version 2**

M&R Global's Copperhead Pro Max presses are the benchmark in automatic screen printing presses, combining highest quality components, leading-class craftsmanship and high-speed production to create an outstanding press at an affordable price. The all new upgraded design with front screen loading and side screen holders assist operators for quick setup and allow convenient front and rear screen adjustments.

An electric indexing system enables extremely smooth and quiet operation. The included, innovative squeegee pressure equalizer system with regulators on each printhead speeds setup and ensures uniform ink deposit for excellent print quality.

Electric printheads, tool-free squeegee/floodbar angle adjustment, pneumatic screen frame clamps and independent squeegee/flood speeds provide operators with all the time-saving features needed for quick setups. The Copperhead Pro Max is compatible with M&R Tri-Loc® system for the ultimate in print registration speed, accuracy and consistency.

Compact Equipment • Quiet Operation • Tool-Free Adjustments

Ensures consistent & strong pressure all over the print area to deliver uniform ink deposit.

By properly managing printing ink distribution, the Copperhead print head design increases print speeds to achieve higher production while using the least amount of print strokes.

The Squeegee Equalizer System

Individual mechanical head lifts assist operators for quick and easy screen cleaning
